Of All the Ways to Go to California

experienced folks are agreed that
comfort, enjoyment and economy.
Burlington Personally Conducted
Parties hit the nail on the head.
Think of going all the way with-
out a single change enroute, thru
Denver, Colorado Springs, Royal
Gorge, Scenic Colorado and Salt
Lake—in daylight! And under
the personal charge of a congenial,
competent excursion conductor,
who sole duty is to look after your
comfort and enjoyment, and to
indicate and explain the points of
interest enroute!

It is certainly the one care free
way to go to California. It is also
the economical way. Special at-
tention is given to elderly persons,
women and children traveling alone.

When You Travel West Be a Burlington Guest

This is just one of the Burling-
ton's Willingness-to-Serve features
rendered without charge to its pa-
trons.

The Burlington's illustrated folder
telling you of a wonderful way of
traveling to California will be fur-
nished free upon request—and it's
worth reading even if you don't go.
L. F. MOORE, Ticket Agent.

Notice to Hunters

C. H. FRAZIER	R. A. DODD
N. R. WILSON	J. A. YOUNT
CHAS. JENNINGS	FRANK FAIN
G. M. WEST	

Now, hunters, keep out and you
will have no trouble with the above
named farmers.

Save Tuition Money

THE BLADE has for sale, at 50
per cent discount, just one trans-
ferable scholarship in the most
original and independent business
college in America. Phone, write
or call at once if you are interested
in securing a business education.

Modern Marriage.

Marriage may once have been com-
parable to a profession. It is not now.
It may once, for a woman, have been
comparable to slavery. It is not now.
Marriage, in fact, cannot be classed
with anything but itself. It is mar-
riage and nothing else—a wonderful
mixture of experiences and duties on
many different planes. So far as its
spiritual demands go, it may require
everything or nothing. It may of ne-
cessity fill her life or leave it empty.
To call it a profession is to blur its
meaning, for it is much more than this
and much less.

Apostolici Renounced Wine.

The Apostolici was a sect which first
appeared at the end of the second cen-
tury. The members renounced mar-
riage, wine and flesh foods. A second
sect, which sprang up about 1261
wandered about, clothed in white, with
long beards, disheveled hair and bare
heads, accompanied by women, called
spiritual sisters, preaching against the
church at Rome. The leader was
burned alive in 1300, his followers
were dispersed in 1307 and the sect
died out in 1404.

Flattering Beaux.

Girls, don't listen to flattering
beaux; for while as friends they al-
ways please, you will find in reality
they are feaux. They flatter your
eyes, mouth and naux, and sing you
raise from head to teaux. They take
you to balls, parties and sheaux, and
are adepts at concealing their weaux
—although as fickle as the wind that
bleaux.

Differ as to Earth's Age.

Scientists differ greatly as to the
earth's age, estimates varying from
20,000,000 to 150,000,000 years. One
of the first estimates was that of John
Phillips, who in 1860 based on a study
of stratified rock his assertion that
the figure lay somewhere "between
38,000,000 and 96,000,000 years."

Possibilities Are No More.

It used to be considered hugely hu-
morous in the old home village to say
of some bow-legged man that he could
not stop a pig in an alley. But now
adays bow-legged men so vastly out-
number swine that it is impossible to
try the experiment in more than a
comparatively few cases.

Why They Succeed.

Perhaps you think that a lot of suc-
cessful men won success because they
had nerve, whereas their success
probably is due more to good hard
work while you were standing on the
street corner arguing politics or re-
ligion.—Atchison Globe.

Eat Alligators' Eggs.

Alligators' eggs are eaten in the
West India islands and on the west
coast of Africa. They resemble in
shape a hen's egg, and have much the
same taste, but are larger. More than
100 eggs have been found in one allig-
ator.

Figures Concerning Male Heart.

The male heart weighs from ten to
twelve ounces. Its average size is
about five inches long three and a half
inches wide and two inches in greatest
depth.

Navigable Subterranean River.

A subterranean river in the Philip-
pines is navigable by small boats for
2½ miles from its mouth, passing
through several large stalactite-hung
caverns.

Now You Know What It Is.

To settle a dispute, the office dic-
tionary was consulted for "wolverine,"
with the following result: "Wolverine
—A musteline carnivore with sub-
plantigrade feet."

Skating in Prosperity.

No man may expect to get his part
of prosperity unless he is enterprising
and gets out and "digs" for it. The
public owes no man a living.—Tipton
Daily Times.

Feminine Reasoning.

Hub—"Well, it takes two to make a
quarrel, so I'll shut up." Wife—"That's
just like a contemptible man. You'll
sit there and think mean things."

Provides for Pure Air.

Only filtered air is permitted to en-
ter a large German electric plant,
which protects its machinery from
dust with cloth screens.

Life's Unhappiness.

I believe half the unhappiness in life
comes from people being afraid to go
straight at things.—W. J. Locke in
"Simon the Jester."

Nature's Differences.

When a man breathes he uses his
muscular strength to draw in the air,
and it is afterward forced out auto-
matically. With insects, as a German
investigator has just discovered, this
process is just reversed.

Strain's Jewelry Store

Brookfield

Where You Can Do Better

A Jewelry Store where quality comes ahead of price
and profit is sacrificed to good service. This is what
makes this store the best known jewelry establish-
ment in this section.

Appreciated the Apple.

A curious testimony to the impor-
tance formerly attached to the apple
may be found in the coronation serv-
ice of our Anglo-Saxon kings. The
coronation benediction runs: "May
the Almighty bless thee with the
blessing of grapes and apples . . .
by his blessing may this land be filled
with apples, with the fruit and dew
of heaven, from the top of the an-
cient mountains, from the apples of
the eternal hills . . ."—London
Chronicle.

Her Suspicion.

"I declare for it," said Aunt Fretty
Fawits to Mrs. Judge Tubman. "I be-
lieve old Cap'n Peggington is thinking
about marrying again. Burt Blurt says
the cap'n painted up his wooden leg
yesterday. Burt didn't tell me, but he
told Ellick Smart, and Ellick repeated
it to his sister, Prissy, and Prissy told
it to Phoeny Partlow, and Phoeny told
it to the sweet potato peddler, and the
sweet potato peddler told me not ten
minutes ago. So I guess it's so."—
Kansas City Star.

Those Kindly Neighbors.

Wealth cannot buy brains, youth,
honor, devotion, gratitude, peace, di-
gestion, originality, justice, inspira-
tion, integrity, wisdom and several
other things equally desirable. But,
still, if you have money you will not
mind the loss of the rest as much as
your neighbors hope you do.—Kansas
City Star.

Tonsillitis From Bad Water.

That enlarged tonsils are generally
due to drinking impure water is the
contention of Dr. F. Lucas Benham of
Exeter, South Australia. He says that
in every case he has seen the child
was a great drinker of water from the
faucet and that whenever he has been
able to get filtered or boiled water sub-
stituted his patients have improved
and their attacks have become rarer.

Ventilation Experiments

Experiments conducted by the New
York commission on ventilation dem-
onstrate that as long as the tempera-
ture is kept down the vitiated air of
an unventilated room where the hu-
midity is kept constant has no direct
effects on the pulse, blood pressure,
body temperature, respiration or me-
tabolism, though the desire for food is
appreciably diminished.

Mother and Daughter.

The old-fashioned woman who used
to fill eight lamps and clean eight
globes every afternoon now has a
daughter who is too tired to walk
across a room and push a button when
it gets too dark to read.—Cincinnati
Enquirer.

Latest Design in Windmills.

A windmill with five widely-sep-
arated vanes has been adopted for ir-
rigation purposes in Italy's new pos-
sessions in Africa as the only kind
that will withstand high winds and at
the same time work in light breezes.
